MOHAMMED SHAHZAD

AI/ML Engineer | Machine Learning Engineer | AI Engineer

mdshahzad6202@gmail.com | +91-6207255651 | Portfolio | GitHub | linkedin.com/in/mohammed-shahzad07 |Jharkhand, India

Career Objective

Aspiring AI/ML Engineer with hands-on experience building and deploying end-to-end machine learning systems including NLP (RAG, LangChain), Computer Vision (YOLO, OpenCV), and predictive analytics (Scikit-learn, LightGBM). Proficient in Python, deep learning frameworks, model deployment, and cloud platforms (AWS, GCP). Seeking an opportunity to apply my technical skills, contribute to innovative AI projects, and grow professionally in a dynamic organization.

INTERNSHIP & TRAINING EXPERIENCE

Data Science with Gen AI Training – Vizztal Academy **20 Feb 2026 to 20 May 2026**

- Completed a 3-month intensive Data Science & Generative AI training program covering ML pipelines, EDA, and model deployment using Python, Pandas, NumPy, and Scikit-learn.
- Built and evaluated 5+ ML models across regression and time-series tasks, improving prediction accuracy through feature engineering and hyperparameter tuning.
- Successfully delivered the Stock Market Prediction System project, meeting all training objectives and earning an internship completion certificate.

Artificial Intelligence Intern – Interns Elite **12 July 2025 – 11 Sep 2025**

- Completed a structured 2-month AI internship program, working on 3+ hands-on tasks using Python, Pandas, NumPy, and AI libraries aligned with real-world ML workflows.
- Applied Machine Learning techniques including model training, hyperparameter tuning, and evaluation; developed practical problem-solving and logical thinking skills through guided project work.
- Completed all assigned project milestones ahead of schedule, strengthening end-to-end AI model development skills

PROJECTS

RAG-Based Document Chatbot: live link

Tools: Python, LangChain, ChromaDB, Hugging Face, Gemini/OpenAI API, Docker, Streamlit

- Built a multi-document-based RAG chatbot enabling natural-language querying across given PDFs, using vector embeddings and ChromaDB for context-aware retrieval.
- Containerized the application with Docker and deployed via Streamlit, cutting manual document search time significantly for end users.

Stock Market Prediction Using Machine Learning: live link

Tools: Python, Pandas, NumPy, Scikit-learn, LightGBM, Streamlit

- Engineered a stock-trend prediction system using LightGBM and Scikit-learn on historical market data, with feature engineering to boost model accuracy.
- Built an interactive Streamlit dashboard for real-time trend visualization and forecasting.

Vehicle Number Plate Detection System: live link

Tools: Python, OpenCV, YOLO, EasyOCR, Image Processing

- Developed a computer vision pipeline to automatically detect and recognize vehicle number plates from images and videos using YOLO and EasyOCR.
- Achieved reliable plate detection and text extraction across varying lighting and angle conditions, automating manual vehicle-identification workflows.

SKILLS

Programming: Python, SQL, C, C++

ML/DL: Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, Statistics

Data & Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn,

Frameworks: TensorFlow, PyTorch (basics), OpenCV, LangChain, Hugging Face, CI/CD

Deployment: Docker, Flask, REST APIs, Streamlit, Git & GitHub

Cloud Platforms: AWS, GCP, Azure, Google firebase

Tools: Jupyter Notebook, Google Colab, Microsoft Office, Claude Code, Cursor, GitHub Copilot-style tools

EDUCATION

Bachelor of Computer Application (BCA) **2023 – 2026**
Srinath University, Jamshedpur, CGPA – 7.01 ***Jharkhand, India***

Senior Secondary – PCM (12th) **2021 – 2023**
Karim city college, Jamshedpur ***Jharkhand, India***
Percentage: 76%

CERTIFICATIONS

- Data Science with Generative AI Training – Vizztal Academy (2026)
- AI Training & Internship Program – Interns Elite
- Gen AI Academy Certification – Google Cloud & Hack2Skill july'25
- Introduction to Generative AI – Google Cloud – Oct'25

Personal Details

- Languages: English, Hindi
- Hobbies: Learning AI tools, exploring new tech, Playing Football
